

WHAT IS CLAIMED IS:

1. An image reproducing apparatus comprising:

an attacher to be attached with a recording medium forming a plurality of folders
for managing a plurality of image files;

5 a folder number detector for detecting folder numbers of said plurality of folders;

a folder number displayer for displaying said folder numbers detected by said
folder number detector ;

a selector for selecting any one of said folder numbers displayed by said folder
number displayer;

10 a file number detector for detecting the number of image files managed by the
folder holding the folder number selected by said selector; and

a file number displayer for displaying the number of image files detected by said
file number detector.

15 2. An image reproducing apparatus according to claim 1, wherein said file number
displayer displays said file number on the same screen as a screen displaying said folder
numbers.

20 3. An image reproducing apparatus according to claim 1, further comprising a
total file number detector for detecting a total number of said image files recorded in said
recording medium and a total file number displayer for displaying said total file number
detected by said total file number detector.

4. An image reproducing apparatus according to claim 3, wherein said total file
number displayer displays said total number on the same screen as the screen displaying
said folder numbers.
